About Me

Full Stack Developer with 6+ years of experience building web applications and e-commerce solutions. Specialized in Node.js, React, AWS, and Shopify, delivering scalable, high-performance solutions.

Experience

Shopify Developer | Dango (Jan 2026 - Present)

- Develop and maintain Shopify stores for U.S.-based clients.
- Customize Shopify themes using Liquid, HTML, CSS, and JavaScript.
- Integrate third-party services using Shopify Admin API and GraphQL.
- Develop custom apps and features, while providing ongoing technical support.

Tech Lead | Shippify (Jul 2022 - Jan 2026)

- Led a cross-functional team of four developers, managing tasks and delivering high-quality solutions using Scrum methodologies.
- Designed and deployed scalable backend solutions using AWS services (Lambda, Step Functions, SQS, SNS) and a microservices architecture.
- Developed micro-frontends to improve modularity, team collaboration, and development efficiency.
- Mentored junior developers and fostered a collaborative, results-driven environment.

Full Stack Developer | Shippify (Apr 2020 - Jul 2022)

- Developed and maintained core modules for Shippify's web platform using Node.js, Express, and React.
- Designed and implemented APIs, integrating third-party services to extend platform functionality.
- Managed relational (MySQL) and NoSQL (Firestore, DynamoDB, Redis) databases to ensure efficient data storage and retrieval.
- Developed a Shopify app to integrate Shippify's shipping services.
